

# Looking for work?

## Would you like individual, tailored assistance to find work?

At Joblife we are committed to providing the support you need to meet your career goals and become financially independent.

Your dedicated Joblife Employment Consultant will take the time to understand your personal circumstances, learn about the barriers you face to employment, and work with you to develop a personal plan to help you find real jobs and support you to stay in employment.

We focus on your ability and connect you with local employers who are looking for people with your skills and background.

And, if you are a student or a member of the armed forces we make it easy for you to transition into open work.

## Best of all, our services are free.

You'll have exclusive access to our unique app, Jobfind, to search for work, manage your appointments and stay connected to your employment consultant around the clock.

We'll actively promote you across our strong network of employers and companies and work with them so they have a clear understanding of your strengths and skills and ability to fill their vacancy.

Once you've started your new job, our commitment doesn't end there. We'll provide all the support you need, including regular contact to see how you are going and if there is anything else we can do to help you.
